

## Faculty Making A Difference Award

By, Henry Bracey, Counselor, Counseling and Career Services

An instructor in the DVS Mathematics department of Midlands Technical College has been selected as a recipient of the Faculty /Staff making a Difference award. As a developmental math instructor Ms. Emmira Shannon has provided instruction, support and guidance for students engaged in the two year college experience at Midlands Technical College. Ms. Shannon consistently provides students taking her classes the opportunity to learn best practices, ideas and strategies for learning and mastering mathematical concepts. Her no nonsense approach to teaching and learning has served effectively to motivate and train both former and current students to become competent and confident in their math skills and outlook on life. To know Ms Shannon is to know how fortunate Midlands Technical College is to have her and her deep commitment to helping students get where they want to be from here.

Note: Ms Shannon was unavailable for a picture at the time of this publication
