(c) If this solicitation is amended, then all terms and conditions which are not modified remain unchanged.

The following question was submitted by the deadline, as stated in solicitation MTC-RFQ-0847:

Question 1: On the spec sheet, the flat size is 9" x 24" plus a pocket. In printing terms the first dimension is always the width and the second, the height. Wondering if they are crisscrossed and the 24" wrong all together.

Should it really be 18" wide by 17" deep (12" plus 5" pocket) as the flat size? Then the pocket folds up creating the final height of 12". The 18" flat width then folds in half to a finished size of 9" creating a finished 9" x 12" pocket folder.

Answer: Yes, it should really be 18" wide by 17" deep (12" plus 5" pocket) as the flat size. Then the pocket folds up creating the final height of 12". The 18" flat width then folds in half to a finished size of 9" creating a finished 9" x 12" pocket folder.
