

10 TIPS FOR STUDENT SUCCESS ON COLLEGE EXAMS

1. Study smart and not hard. One week before the exam, ask your instructor for the topics that will be covered on the test. Give yourself plenty of time to study. The important key is to understand the topics and not just memorize it. By understanding it well, you will tend to remember it better.
2. Manage your time
3. Get sufficient amount of sleep
4. Read questions carefully and follow instructions
5. Bring appropriate test tools to include pen/pencil, paper, sometimes calculator, etc.
6. Don't worry if others finish before you
7. Ask instructor for clarification if you don't understand something on the test
8. Don't get stressed, frustrated or worried
9. Have a good and positive attitude
10. Review, review, review
