- > ASQ Certifications

CHOOSE FROM THESE NATIONALLY RECOGNIZED PROGRAMS:

ASQ Certifications | Lean Six Sigma | Kepner-Tregoe
Lean Productivity Improvement | Quality Systems (ISO/TS/AS) | Statistical Tools

Turnkey Six Sigma and Lean Six Sigma (LSS) Capability

From working with your organization's leadership team to structure the program, through Black Belt, Green Belt, and Yellow Belt training, the Center for Quality provides the training, facilitation, and consulting services necessary to successfully launch your program.

OUR MOST POPULAR PROGRAMS INCLUDE:

Lean Six Sigma (LSS) Green Belt Fast-Track Training

Green Belts, who support Black Belt efforts and lead LSS projects, receive 10 days of training in two, five-day blocks spread over a two-month period. Green Belt candidates have the option of selecting an actual LSS project during the training to help ensure rapid payback on the training investment.

Lean Six Sigma (LSS) Green Belt to Black Belt Fast-Track Training

This course provides trained Green Belts with the tools and techniques required to move up to Black Belt status. Black Belt candidates work through an actual LSS project during the training, ensuring the organization receives immediate payback on the additional training investment.

Lean Six Sigma (LSS) Black Belt Fast-Track Training

Black Belts, the leaders of LSS project teams, receive 20 days of training. Black Belt candidates work through an actual LSS project during the training, ensuring the organization receives immediate payback on the training investment. The Center for Quality provides both training and project consultation to help ensure project success. Successful completion of the project is required for Black Belt certification.

Champion Training

Champions, those who select projects and provide support to LSS teams, receive the knowledge and skills needed to drive LSS success.

Organizational Leadership/Deployment Training and Consulting

This highly efficient two-day session walks senior managers through the LSS deployment roadmap, laying out a path of activities to ensure LSS program success.
